

Solar Lights

House and Garden

Mirage

Streamlined aesthetic light to beautify your gardens and paths. Constant light shining all night and reflecting from the textured glass panel. This light has 2 simple DIY installation methods of either screwing into a solid base or affixing to a provided ground stake.

Suitable for garden, pathway, driveway, pool landscape, front entrance.

| | |
|-----------------------|---|
| Model | SGL-07 and SGL-08 |
| Charge Life | 7+ nights continuous lighting |
| Remote Control | No |
| Motion Sensor | No |
| LED | 20 lumens |
| Height | 530 mm |
| Technology | Adaptive Lighting System / Temperature Control System / Variable Frequency Technology |
| Warranty | 2 years |

Security Flood Light

Simple DIY installation of this 10 watt light with motion sensor and 2 lighting modes. Dim light all night, and when PIR is activated there is full brightness until 30 seconds after last detected movement. Super bright, separate solar panel and adjustable lighting angles.

Will suit courtyard, veranda, gazebo, barbecue area, shelter shed, garden, path, farm, shed, garage, stable, caravan, camping

| | |
|-----------------------|---|
| Model | SML-04N |
| Charge Life | 7+ nights continuous lighting |
| Remote Control | No |
| Motion Sensor | Yes |
| LED | 1000 lumens / 10 W |
| Technology | Adaptive Lighting System / Temperature Control System / Variable Frequency Technology |
| Warranty | 1 year |

SML-04N

Tucano Series

A range of three elegant, modern solar lights suited to various settings including gardens, pathways, sheds and entranceways. Choose 6 or 7 for a softer ambient effect covering a greater lighting area and a remote control.

Suitable for pathway, driveway, pool landscape, front entrance, courtyards

SWL-05s

| | |
|-----------------------|---|
| Charge Life | 5+ nights continuous lighting |
| Remote Control | No |
| Motion Sensor | Yes |
| LED | 200 lumens / 2 W |
| Technology | Adaptive Lighting System / Temperature Control System / Variable Frequency Technology |
| Warranty | 1 year |

SWL-06

| | |
|-----------------------|---|
| Charge Life | 5+ nights continuous lighting |
| Remote Control | Yes |
| Motion Sensor | Yes |
| LED | 600 lumens / 6 W |
| Technology | Adaptive Lighting System / Temperature Control System / Variable Frequency Technology |
| Warranty | 3 years |

SWL-07

| | |
|-----------------------|---|
| Charge Life | 6+ nights continuous lighting |
| Remote Control | Yes |
| Motion Sensor | Yes |
| LED | 1200 lumens / 12 W |
| Technology | Adaptive Lighting System / Temperature Control System / Variable Frequency Technology |
| Warranty | 3 years |

SWL-07 can be wall or pole mounted

Incorporated Technology

Adaptive Lighting System (ALS2.0): Automatically adjusts lighting levels according to surrounding weather conditions.

Temperature Control System (TCS): Provides critical battery control system to protect the battery from overheating thus maximising battery life and output.

Variable Frequency Technology (VFT): Special Technology managing LED output thereby maximising battery charge life.

Pearl Series

Modern yet classic lines to enhance the decoration of your outdoor areas. Highlight your main features, create an ambience and have practical lighting with 2 lighting modes. Available as a bollard or a pillar light.

Suitable for courtyard, garden, park, pathway, landscape, pool, lawn, garage, fence

Classic

| | |
|-----------------------|---|
| Model | SGL-01N and SGL-02N |
| Charge Life | 7+ nights continuous lighting |
| Bollard Height | 800 mm |
| Remote Control | No |
| Motion Sensor | SGL-01N - No SGL-02N - Yes |
| LED | SGL-01N - 100 lumens / 1 W SGL-02N - 400 lumens / 4 W |
| Technology | Adaptive Lighting System / Temperature Control System / Variable Frequency Technology |
| Warranty | 1 year |

Modern

| | |
|-----------------------|---|
| Model | ESL-15N and ESL-25N |
| Charge Life | 7+ nights continuous lighting |
| Bollard Height | 780 mm |
| Remote Control | No |
| Motion Sensor | No |
| LED | 100 lumens / 1 W |
| Technology | Adaptive Lighting System / Temperature Control System / Variable Frequency Technology |
| Warranty | 1 year |

Battery Lifespan

All batteries have a lifespan of 1500 cycles with a cycle being from fully charged to fully discharged. In any given night the amount of discharge will vary depending on facts such as the hours of darkness and the lighting mode selected.

Beetle

Exciting design with cutting edge technology to capture the solar energy. Perfect for a wall, fence, garage, pool area, shed door with the added security of a motion sensor.

| | |
|-----------------------|---|
| Model | SWL-03 |
| Charge Life | 7+ nights continuous lighting |
| Remote Control | No |
| Motion Sensor | Yes |
| LED | 400 lumens / 4 W |
| Technology | Adaptive Lighting System / Temperature Control System / Variable Frequency Technology |
| Warranty | 1 year |

SWL-03

Wall Light

Functional in its use with a warm lighting area at 20 lumens all night. Slim and sleek in design. Easy to install.

Good for courtyard, garden, pathway, pool, garage, fence, step

| | |
|-----------------------|---|
| Model | ESL-06K |
| Charge Life | 3+ nights continuous lighting |
| Remote Control | No |
| Motion Sensor | No |
| LED | 20 lumens |
| Technology | Adaptive Lighting System / Temperature Control System / Variable Frequency Technology |
| Warranty | 1 year |
